Fish splashing in the River
Sun rays slicing through the trees
Animals waking from their beds
Waterfalls gushing down
The owls hoot, hoot, hoot...
The frogs croak, croak, croak...
The leaves dance in the sky
Twisting
Twirling

To the ground

In the morning a falcon zooms through the air
Otters play near the river bed.
As winter comes, snowflakes drift with delight
Snow glistening on the ground
As a thin cloak blankets the earth
During the night

These are the wonders
of the forest
