Timmy The Tornado

CD
Kindergarten
#16

This is a story about
timmy the Tornado.

Timmy is dark and grey
and spins around really fast.
Timmy can knock down
Power lines and turn
off the Power to every
house.

He is a F5 Tornado that
can damage a good built
house. He is the worst
Tornado. Timmy can
bring up almost
anything. Never open windows
When he is outside.

Timmy the Tornado is so
dangerous that you need
to get inside and get
in a bathtub or a
Closet. You need to get
away from glass.

If timmy comes to school you need to push out of the class to the hall and cover your head.

Tornado Alley is where up to 500 Tornadoes can be and Timmy the Tornado can come any time of the year. He is big and bad and can destroy every thing in his path.

Tornadoes are cool looking but they are really bad. Always be careful when Timmy is outside.

Thank you for reading my story about my Tornado facts.
